

*‘ Engaging with government to create change brings a smile to my face at least once a week! ’*

**ניק**

**Manager**

**SPAN Community House**

**What I do:** Manage SPAN, a Neighbourhood House that works with the diverse local community to provide a range of programs and services from web design courses to West African drumming workshops. A lot of my time is spent advocating for government to better resource the grassroots efforts of local communities.

**What I love about my job:** The choice and flexibility in my work. Probably my favourite kind of work is policy advocacy. Engaging with government to create change brings a smile to my face at least once a week!
