

‘ the variety of my work and the chance to meet heaps of different people ’

LEAH

**Project Administration Officer
and National Policy Officer**

**Victorian Council of Social
Service (VCOSS) and Blind
Citizens Australia (BCA)**

What I do: At VCOSS I provide admin and project support to the Disability Advocacy Resource Unit. I work with other people with disabilities doing the usual admin stuff as well as helping to organise events, writing up email newsletters and preparing for the launch of our website.

At BCA my job is to help make the lives of people who are blind or vision impaired better by shaping policy. I write policy documents and submissions, participate in consultations and build networks to hopefully change the world

What I love about my job: I love the variety of my work and the chance to meet heaps of different people who are all passionate about what they do. My hours are flexible so I'm able to keep studying while I work.
